NEXUS ENGINEERING GROUP SIGNS PROFESSIONAL SERVICES AGREEMENT WITH OXITENO

Agreement bolsters Nexus' growth and operations

Cleveland, OH - Nexus Engineering Group LLC has signed a professional services agreement with Oxiteno, a global leader in surfactants and specialty chemicals.

The agreement creates a new working relationship to provide long-term engineering and project management services for Oxiteno's U.S. operations and clients. Additional services will include design, construction management and the full breath of Nexus technical capabilities.

Oxiteno, headquartered in Brazil, has been present in the US with local business operations since 2007. Oxiteno manufactures specialty chemicals and develops innovative and sustainable solutions for several markets including home and personal care, paints and coatings, oil and gas, and agrochemicals. Oxiteno recently opened a new U.S. office in Houston, TX and is investing in a new alkoxylation unit in Pasadena, TX.

Under the agreement, Nexus Engineering Group will act as owner's representative and support Oxiteno in the execution of this investment in Texas. A project team, led by Michael McKinley, will support Oxiteno in Houston.

"Nexus Engineering is pleased to collaborate with Oxiteno," said Jeff Herzog, president, Nexus Engineering Group. "Entering into this agreement confirms our commitment to growth while leveraging our skills and expertise in chemical engineering."

Nexus will service Oxiteno with team members from all three offices in Cleveland, Maumee and Houston.

About Nexus Engineering Group LLC

Nexus Engineering Group LLC, headquartered in Cleveland, and with offices in Maumee, Ohio and Houston, Texas, is a full-service, independent engineering firm focused on supporting clients' specific project goals from concept to startup. Since 2005, Nexus has been the preferred engineering firm of choice in the refining, petroleum midstream, chemical, manufacturing and utilities industries.

With more than 100 professionals on staff, Nexus is made up of experienced process, instrumentation and controls, structural, electrical, mechanical, and piping professionals with decades of hands-on conceptual and detailed system design and construction and project management experience.

Nexus delivers project designs that reduce overall risks resulting in safer work environments. By utilizing state-of-the-art software and innovative design tools, Nexus consistently meets client project and investment requirements. Get to know us and you will agree that Nexus is not your typical engineering firm - *"We think differently"*.
