## MELENA HULLER ASSIGNED TO NEW LEADERSHIP ROLE AT NEXUS ENGINEERING GROUP

*Nexus thinks differently about project management with new team leader.*

Cleveland, OH - Nexus Engineering Group LLC assigned senior project manager Melena Huller, to new leadership role at the company.

Nexus is thinking differently about project management. The Nexus Project Management team, led by Huller, provides a well-defined process for managing Nexus' client projects.

As part of the project management team's continuous improvement efforts, work is underway to update Nexus project practices and guidelines by integrating interpersonal, team building and communication skills with the best and proven project management tools and techniques. The ultimate goal is to define and document a proven project management process and develop critical soft skills to consistently deliver outstanding project performance. Outstanding performance means meeting client performance indicators for project delivery, with an enthusiastic and effective project team.

"Nexus project managers are dedicated to enhancing team performance both internally and externally using both hard and soft skills. Successful project management combines procedures, tools and techniques with good team building and interpersonal behavior. Combining these skills provides a positive and fun experience for the entire project team." said Huller. "We are building our approach based on shared lessons learned and experiences."

"Nexus is committed to growing the expertise and skills of project managers," said Jeff Herzog, president, Nexus Engineering Group. "With Melena's leadership, we will keep our project team thinking differently about both project management expertise and the critical soft skills which are often underappreciated. We are constantly finding ways to improve our project performance as measured by the client and our own team's job satisfaction".

Huller is a graduate of Cleveland State University with her BSME in Mechanical Engineering, is a certified Project Management Professional (PMP), is a member of Project Management Institute (PMI) and has more than 20 years leading major projects in the oil refinery and process engineering business.

## **About Nexus Engineering Group LLC**

Nexus Engineering Group LLC, headquartered in Cleveland, and with offices in Maumee, Ohio and Houston, Texas, is a full-service, independent engineering firm focused on supporting clients' specific project goals from concept to startup. Founded in 2005 by Marianne Corrao and Jeff Herzog, Nexus has been the preferred engineering firm of choice in the refining, petroleum midstream, chemical, manufacturing and utilities industries.

With more than 100 professionals on staff, Nexus is made up of experienced process, instrumentation and controls, structural, electrical, mechanical, and piping professionals with decades of hands-on conceptual and detailed system design and construction and project management experience.

Nexus delivers project designs that reduce overall risks resulting in safer work environments. By utilizing state-of-the-art software and innovative design tools, Nexus consistently meets client project and investment requirements. Get to know us and you will agree that Nexus is not your typical engineering firm - *"We think differently"*.
