NEXUS ENGINEERING GROUP EARNS UNITED IN SAFETY AWARD FROM BP

The company earns safety award for the fifth year in a row for outstanding performance

Cleveland, OH - Nexus Engineering Group LLC was presented the prestigious *United in Safety* award from BP in Maumee, Ohio. Nexus is one of a few select on-site contractors that have met or exceeded safety requirements required by the company when working at the BP-Husky facility. This award was presented to Nexus in November and represents the fifth straight year the engineering firm has achieved excellence in safety performance.

United in Safety is a safety council, consisting of on-site contractor employees, working together as a team with BP-Husky to proactively identify and eliminate potential hazards, utilizing a process of training, mentoring, safety audits, recognition, and communications to promote a "We Believe in Zero" safety culture. The vision is to prevent all injuries and is committed and dedicated to creating no harm to the environment and providing a safe and healthy workplace for all employees at BP-Husky Refining and its subcontractors. Its mission is to work as a team to increase communications and safety awareness/performance among team members and the community to benefit BP-Husky Refining and all contractor member/employees.

Nexus has been working with BP-Husky for 11 years and has learned to appreciate the BP safety culture and has aligned their own safety program with similar values, goals, and methodology. Nexus considers safety its primary goal in performance. As a result, Nexus has had no recordable injuries since their founding in 2005. A feat not many professional service companies can say.

"At Nexus, we are committed to maintaining a culture that values the safety and health of every employee, every client, and ultimately our environment," states Executive Vice President Marianne C. Corrao. "We are committed to assuring that every member of the organization maintains a constant awareness, expert training, and appropriate certifications as needed to ensure safe working conditions for all," says Corrao.

About Nexus Engineering Group LLC

Nexus Engineering Group LLC, headquartered in Cleveland, and with offices in Maumee, Ohio and Houston, Texas, is a full-service, independent engineering firm focused on supporting clients' specific

project goals from concept to startup. Since 2005, Nexus has been the preferred engineering firm of choice in the refining, petroleum midstream, chemical, manufacturing and utilities industries.

With more than 100 professionals on staff, Nexus is made up of experienced process, instrumentation and controls, structural, electrical, mechanical, and piping professionals with decades of hands-on conceptual and detailed system design and construction and project management experience.

Nexus delivers project designs that reduce overall risks resulting in safer work environments. By utilizing state-of-the-art software and innovative design tools, Nexus consistently meets client project and investment requirements. Get to know us and you will agree that Nexus is not your typical engineering firm - "We think differently".
