## NEXUS ENGINEERING GROUP INTRODUCES NEW WEBSITE

Nexus Engineering Group is not your typical engineering firm. They think differently.

Cleveland, OH - Nexus Engineering Group LLC, headquartered in the heart of downtown Cleveland in Playhouse Square, launched their new website this week in support of their ongoing branding efforts. The new website better reflects the growth, capability and personality of the firm founded in 2005 by partners Jeff Herzog PE and Marianne Corrao.

The 100 plus person professional engineering services firm has positioned itself for continued growth in refining, chemical, and manufacturing markets in bulk of the United States. With recent offices opened in Maumee, OH and Houston, TX, Nexus is poised to support the technical and project management needs of an ever-growing base of industrial clients. Several of its members are professional engineers, certified project managers, and have decades of professional experience in the field.

“It’s our people that make all the difference,” says President and CEO Jeff Herzog. “We pride ourselves by thinking differently than other engineering firms. We operate as if our client’s goals were our own goals,” states Herzog. “No other firm has the talent, experience, or moxie to tackle projects like we do at Nexus. And quite frankly, our customers really like working with us.”

Nexus Engineering Group proudly shares that through teamwork and training, the company has closed out more than 1,100 successful projects with more than 4,300 days of zero recordable incidents in the field.

“We focus on providing our clients with the technical and economic information they need to make better business decisions,” says Executive Vice President Marianne C. Corrao. “We help identify risk and risk mitigation options, with an eye to inherently safer designs,” exclaims Corrao. “There is no substitute for planning for safety early in the project life cycle.”

The young and energetic engineering firm has proved they are trailblazers in the industry and have backed up their claims with solid measurable results and dozens satisfied customers. At Nexus Engineering Group, they truly do think differently.

## **About Nexus Engineering Group LLC**

Nexus Engineering Group LLC, headquartered in Cleveland, and with offices in Toledo, OH and Houston, TX, is a full-service, independent engineering firm focused on supporting clients' specific project goals from concept to startup. Since 2005, Nexus has been the preferred engineering firm of choice in the refining, petroleum midstream, chemical, manufacturing and utilities industries.

With more than 100 professionals on staff, Nexus is made up of experienced process, instrumentation and controls, structural, electrical, mechanical, and piping professionals with decades of hands-on conceptual and detailed system design and construction and project management experience.

Nexus delivers project designs that reduce overall risks resulting in safer work environments. By utilizing state-of-the-art software and innovative design tools, Nexus consistently meets client project and investment requirements. Get to know us and you will agree that Nexus is not your typical engineering firm - "*We think differently*".
