JEFF HERZOG APPOINTED ADVISORY BOARD MEMBER AT GREAT LAKES ENERGY INSTITUTE AT CASE WESTERN RESERVE UNIVERSITY

Nexus President chosen to participate as an advisor for his extensive experience in the oil and gas industry.

Cleveland – Jeff Herzog, president of Nexus Engineering Group LLC, was appointed to the advisory board of the Great Lakes Energy Institute at Case Western Reserve University. Herzog will act as an advisor to the board based on his extensive professional experience in the oil and gas industry and will offer insights and recommendations to advance energy research and global energy solutions.

The Great Lakes Energy Institute (GLEI), founded in 2008, is an interdisciplinary research institute dedicated to catalyzing breakthroughs in energy sustainability that address the most pressing problems facing our world. Located in Cleveland, and housed within the Case Western Reserve University School of Engineering, the group empowers faculty, students and partners to expand knowledge, deepen understanding and create innovative and sustainable energy solutions.

Herzog, a CWRU graduate, has been involved with the university in an advisory role since 2014. His previous role was president of the CWRU College of Engineering Alumni Association. Herzog brings decades of hands-on experience in the refining and chemical processing industries with global energy companies to the forefront of the latest energy challenges. He is one of 15 hand-picked, industry recognized energy professionals on the board of the GLEI.

“I am honored to be selected as an advisor to the Great Lakes Energy Institute,” Herzog said. “Their vision and goal to contribute to global sustainability and conservation of energy is very admirable. I look forward to contributing to the overall support of energy education and the exploration of future technologies.”

The Institute focuses on five major technology areas within the energy field, including the future of power grids, energy storage, solar energy, wind energy and technology progress in the oil and gas industry. The group also supports entrepreneurial education, commercialization and grant proposals.

About Nexus Engineering Group LLC

Nexus Engineering Group LLC, headquartered in Cleveland, and with offices in Maumee, Ohio and Houston, Texas, is a full-service, independent engineering firm focused on supporting clients' specific project goals from concept to startup. Since 2005, Nexus has been the preferred engineering firm of choice in the refining, petroleum midstream, chemical, manufacturing and utilities industries.

With more than 100 professionals on staff, Nexus is made up of experienced process, instrumentation and controls, structural, electrical, mechanical, and piping professionals with decades of hands-on conceptual and detailed system design and construction and project management experience.

Nexus delivers project designs that reduce overall risks resulting in safer work environments. By utilizing state-of-the-art software and innovative design tools, Nexus consistently meets client project and investment requirements. Get to know us and you will agree that Nexus is not your typical engineering firm - *"We think differently"*.
