## NEXUS ENGINEERING GROUP LLC MAKES LIST OF TOP ENGINEERING FIRMS IN NORTHEASTERN OHIO

*Crain's Cleveland Business includes Nexus in the 2018 list of largest engineering firms in the area*

Cleveland, OH - Nexus Engineering Group LLC is proud to be listed as one of the largest engineering firms in Northeastern Ohio, per Crain's Cleveland Business annual ranking for 2018. Since the company's origin in 2005, Nexus has grown at a continually increasing rate in both revenue and employee count, making a name for itself in Northeastern Ohio as a standout, highly respected, and innovative engineering firm in the refining, petroleum midstream, chemical, manufacturing, and utilities industries.

Crain's Cleveland Business has been compiling, cataloging, and ranking local business data in an annual Book of Lists for over thirty years. This year marks the first time that Nexus has been included in the listing of largest engineering firms in Crain's 2018 Book of Lists. Ranked by number of Northeast Ohio registered engineers, Crain's listing also includes the total local engineers, the number of local employees, local billings in 2017, and notable company projects.

"We are excited to be included as a top engineering firm in the area with our growing revenue and increasing number of employed engineers," said President Jeffrey Herzog. "With the company's continued growth and the fact that Nexus is a fun and great place to work, our clients are loyal, satisfied, and enjoy working with us, too," Herzog stated.

With over 100 employees, including 75 engineers, and with engineering offices in Cleveland, Toledo, and Houston, Herzog expects Nexus' growth to continue in 2018 and beyond.

### **About Nexus Engineering Group LLC**

Nexus Engineering Group LLC, headquartered in Cleveland, and with offices in Maumee, Ohio and Houston, Texas, is a full-service, independent engineering firm focused on supporting clients' specific project goals from concept to startup. Since 2005, clients have recognized Nexus as the engineering firm of choice in the refining, petroleum midstream, chemical, manufacturing and utilities industries.

With more than 100 professionals on staff, Nexus is made up of experienced process, instrumentation and controls, structural, electrical, mechanical, and piping professionals with decades of hands-on conceptual and detailed system design and construction and project management experience.

Nexus delivers project designs that reduce overall risks resulting in safer work environments. By utilizing state-of-the-art software and innovative design tools, Nexus consistently meets client project and investment requirements. Get to know us and you will agree that Nexus is not your typical engineering firm - *"We think differently"*.
