FOR IMMEDIATE RELEASE
February 19, 2020

NEXUS ENGINEERING GROUP SEES CONTINUED GROWTH IN 2019

The company surpasses \$20 million in revenue as it celebrates its 15th anniversary

CLEVELAND - Nexus Engineering Group LLC, a full-service, independent engineering firm focused in the refining, petroleum midstream, chemical, and utilities industries, grew 19% in annual revenue in 2019 and hit a major company milestone of \$20 million in revenue. Heading into its 15th year of business, the firm has strategically positioned itself for continued success in 2020.

Due to Nexus's exceptional team members partnering with clients for project success, key clients have chosen to continue working with the firm in an increased capacity. Two major turnarounds at two of these client projects also contributed to the company's growth in 2019.

"We have built up our new business pipeline so that we can continue fueling growth in 2020 and beyond," said Jeff Herzog, Founding Partner and President of Nexus Engineering Group. "We are relocating and expanding our office in Maumee, Ohio, and have furthered our presence in Michigan and the Upper Midwest to be poised for more growth."

To strengthen the company and accommodate present and future growth, Nexus hired 22 new full time team members in 2019 in a variety of disciplines and functions throughout Cleveland, Maumee, and the upper Midwest. This included several senior-level hires: Don Newberry to lead project services, Howard Thompson to oversee Nexus's safety and quality plans, and Dave Roland to further develop the refining and petroleum midstream business. Looking to continue to add to the Nexus team in 2020, the firm strives to create an attractive company culture with great benefits and meaningful work.

"Our team members are key to our growth, so we've benchmarked their benefits and worked to improve our offering," said Marianne Corrao, Founding Partner and Executive Vice President of Nexus Engineering Group. "We surveyed the organization and are taking steps toward creating a culture based on employee feedback."

Nexus is always looking for talented individuals to join their growing team of professionals. Current career opportunities are posted on the *Careers* page on *Nexusegroup.com*.

Finally, the firm continues to thrive as an innovative company by pushing its 3D modeling capabilities and expertise while increasing its use of animations for turnaround planning and successfully deploying an internal pilot program to test HoloLens technology.

Nexus looks forward to celebrating its achievements over 15 years with a series of anniversary events and programs throughout 2020.

About Nexus Engineering Group LLC

Nexus Engineering Group LLC, headquartered in Cleveland, and with offices in Maumee, Ohio, and Houston, Texas, is a full-service, independent engineering firm focused on supporting clients' specific project goals from concept to startup. Since 2005, clients have recognized Nexus as the engineering firm of choice in the refining, petroleum midstream, chemical, manufacturing and utilities industries.

With more than 130 professionals on staff, Nexus is made up of experienced process, instrumentation and controls, structural, electrical, mechanical, and piping professionals. Together, they offer decades of hands-on conceptual and detailed system design and construction and project management experience.

Nexus delivers project designs that reduce overall risks resulting in safer work environments. By utilizing state-of-the-art software and innovative design tools, Nexus consistently meets client project and investment requirements. Get to know us and you will agree that Nexus is not your typical engineering firm: *"We think differently"*.
