## NEXUS ENGINEERING GROUP MOVES UP ON LIST OF TOP ENGINEERING FIRMS FOR THE SECOND YEAR IN A ROW

*Nexus moves up five positions on Crain's Cleveland Business 2020 list of largest engineering firms in Northeast Ohio.*

Cleveland, OH - Nexus Engineering Group, LLC is proud to be listed as one of the largest engineering firms in Northeastern Ohio in Crain's Cleveland Business annual ranking. The company moves up five positions from 22 to 17 on this year's list.

Crain's Cleveland Business ranks the largest engineering firms by the number of registered professional engineers in Northeast Ohio. This listing also includes details on the total number of engineers and employees, and revenue generated locally in 2019.

Nexus grew 19% in annual revenue in 2019 and hit a major company milestone of \$20 million plus in annual revenue. Heading into its 15th year of business, the firm has strategically positioned itself for continued success in 2020 and beyond.

"Nexus had a great year in 2019," said President Jeffrey Herzog. "We invested in our team and our technology and we remained relentlessly focused on delivering the very best for our clients. This was the key to our success." Herzog stated.

In 2019, Nexus hired 22 new team members in a variety of disciplines and functions throughout Cleveland, Maumee, and the upper Midwest. This growth and continued hiring in Northeast Ohio propelled the company up the list of the largest engineering firms.

These ongoing investments in the Nexus team and capabilities enabled the company to quickly and seamlessly pivot to remote work as the COVID-19 situation began to unfold earlier this year. Nexus was proud to continue offering top-tier service to clients without disruption in a time that posed great challenges to many across the industry.

"These are difficult times," said Herzog. "We are confident that we have the right team in place to help us navigate this crisis."

## About Nexus Engineering Group LLC

Nexus Engineering Group LLC, headquartered in Cleveland, and with offices in Maumee, Ohio, and Houston, Texas, is a full-service, independent engineering firm focused on supporting clients' specific project goals from concept to startup. Since 2005, clients have recognized Nexus as the engineering firm of choice in the refining, petroleum midstream, chemical, manufacturing and utilities industries.

With more than 140 professionals on staff, Nexus is made up of experienced process, instrumentation and controls, structural, electrical, mechanical, and piping professionals with decades of hands-on conceptual and detailed system design and construction and project management experience.

Nexus delivers project designs that reduce overall risks resulting in safer work environments. By utilizing state-of-the-art software and innovative design tools, Nexus consistently meets client project and investment requirements. Get to know us and you will agree that Nexus is not your typical engineering firm - "*We think differently*".
